

LED mirror assembly instructions

Instruction for mounting mirror on the wall:

The set includes a mirror, 2 screws or hooks, 2 dowels.

To install the mirror will need an additional: screwdriver, spirit level, pencil.

1. Make 2 holes D6 mm in the wall, insert a dowel.
2. Screw a screw into the dowel. Screws and dowels are included in the mirror set.
3. Connect the electrical wires securely. **Always entrust electrical installation work to a specialist!**
4. Hang the mirror with the fasteners on the screw or hook.
